REFERENCES

ABOUT ME

Software Engineer with 3+ years of experience in mobile and web development. I specialize in building fast, scalable, and user-focused applications using Flutter, JavaScript, Node.js, and Spring Boot. I'm passionate about solving real-world problems through clean code, strong UI/UX, and smart system architecture.

EXPERIENCE

Information Technology Administrator | HCBI Kuća Mira, Belgrade

📅 2017 – 2020   📍 Belgrade, Serbia

- Data entry and data management for a diverse range of organizational needs, ensuring accuracy and completeness of information.
- Conducted regular system maintenance to ensure optimal performance and minimize downtime, implementing efficient solutions to address technical issues.
- Coordinated and facilitated video conferencing meetings, optimizing communication channels for remote teams and clients.

Software Developer Freelancing |Upwork

📅 2020 – present   📍 Belgrade, Serbia

- Dedicated to helping clients bring their ideas to life and solve their unique Software challenges.

Junior Project Manager/Software Tester intern | Deepline.ai

📅 2023 – 2023   📍 Belgrade, Serbia

- Assisting the Senior Project Manager in monitoring project progress, resolving issues, and ensuring timely project delivery.
- Collaborated with developers to identify, reproduce, and document software defects,
- Participated in regular meetings, providing valuable input on software quality and contributing to continuous improvement.

Full Stack Mobile Developer | Appworks

📅 2023 – present   📍 Belgrade, Serbia

- Successfully migrated over 20 applications to Flutter, significantly enhancing cross-platform compatibility and performance on both Android and iOS platforms.
- Engineered Litteraworks to serve as a powerful collaborative tool for journalism and media professionals, enabling real-time access to transcriptions from press conferences, facilitating dynamic workflows, and significantly reducing turnaround times for crafting narratives or verifying facts.
- Collaborated with a passionate team of developers and designers to create highly engaging and functional mobile applications, utilizing both Flutter and FlutterFlow for streamlined development.

Prof.Dr . Nebojša Bačanin-Džakula Vice-Rector for Scientific Research
University of Singidunum
nbacanin@singidunum.ac.rs
+38165/3093-224

- Actively contributed to team discussions and strategic decision-making processes, playing a key role in shaping the technological direction and future roadmap of App-Works' mobile application offerings.
- Integration of advanced AI tools and methodologies into the AppWorks platform, significantly improving user experience and operational efficiency through innovative solutions.
- Demonstrated strong problem-solving skills and a commitment to excellence by troubleshooting and resolving complex technical issues, ensuring the highest quality standards in application performance and reliability.

EDUCATION

Bachelor's In Software Engineering | Singidunum University

📅 2017 – 2022 📍 Belgrade, RS

- -

Master's In Contemporary Information Technologies | Singidunum University

📅 2022 – 2023 📍 Belgrade, RS

CERTIFICATION

- **Introduction to Cybersecurity**, Cisco Networking Academy
- **Introduction to TensorFlow for Artificial Intelligence, Machine Learning, and Deep Learning**, Coursera
- **Linux Essentials Professional Development Certificate**, Linux Professional Institute (LPI)
- **Human Resources Management Capstone: HR for People Managers**, Coursera
